

Zebra® Zip Ship Media

Suggested Price List

Genuine Zebra Supplies make a superior impression. Our media is specially engineered to optimize the performance of Zebra printers, which means less wear and tear on your printheads and reduced cost of maintenance. No single label or tag is right for every application. Whether you need labels for chemical drums or circuit boards, tickets for a shuttle bus, or labels that withstand chemicals and solvents, Zebra has the right media solution.

Zebra's Zip Ship stocking program includes popular sizes of the most frequently ordered media for Zebra thermal printers. This price list offers media for Zebra tabletop, desktop and mobile printers. Our policy is to ship "Stock" product Zip Ship orders within the next working business day. Products that are listed "MTO" are made-to-order and will be ready to ship within four working business days. Zebra also has hundreds of other media solutions to meet your unique applications.

There is a minimum invoice amount of \$50 per shipment destination (waived for Sample Program orders). Products purchased in less than full inner carton quantities are subject to a \$75 broken carton charge, per destination. The chart below highlights materials that are available in Zebra's Zip Ship program. For price quotations on custom sizes, materials or preprinting, please contact your Zebra Supplies Specialist.

Zebra Zip Ship Media

Suggested Price List

Trans Matte 2000™

A bright white, ultra-smooth, matte coated facestock, specially coated for use with Zebra Wax and Wax/Resin ribbons. Its general purpose, permanent, acrylic-based adhesive offers high initial tack and adhesion on corrugated packaging. Suggested applications include; Work In-Process labels, LOGMARS - HIBC labeling, and packaging labels.

Direct 2000™

A smooth, bright white, direct thermal labelstock which produces high-contrast, black, visible light images. Its all-temperature, permanent, acrylic-based adhesive is excellent for freezer grade materials. The thermal sensitive topcoating ensures maximum printhead life and protects the label from harsh environmental conditions. Suggested applications include; indoor, general purpose labeling, labeling of most packaging material, and cold temperature applications.

Trans Matte 3000™

A bright white, ultra-smooth, matte coated facestock, specially coated for use with Zebra Wax and Wax/Resin ribbon. Its all-temperature, permanent, acrylic-based adhesive provides excellent cold temperature performance. Suggested applications include; product identifications, shipping labels, and address labels.

Direct Near I.R. 3000™

A premium, white, topcoated, direct thermal labelstock that produces high-contrast black images with Zebra printers and is scannable in both the visible and "near" infrared ranges (scanning in the 670-675 nanometer range). Its general-purpose adhesive is excellent for adhering to a wide variety of surfaces. Suggested applications include; shipping applications, indoor, general purpose labeling, and labeling of most packaging material.

PolyPro 1000™

A matte topcoated, biaxially-oriented, white polypropylene labelstock. Its high-quality, permanent, acrylic-based adhesive and offers superior performance. Suggested applications include; chemical drum labeling, product labeling, and retail applications.

PolyPro 2000™

A matte topcoated, biaxially-oriented, white polypropylene labelstock. Its high-quality, permanent, acrylic-based adhesive offers superior performance, meets FDA 175.105 and is compatible with a wide variety of surfaces and temperature ranges. Suggested applications include; chemical, medical, food, and drug labeling, capital asset labeling, labeling of most packaging materials, especially corrugate, plastic, glass and metal.

Z-Ultimate® 3000 White

A topcoated white polyester labelstock with excellent print quality. The high-strength, permanent, acrylic-based adhesive offers superior strength and adhesion for a wide variety of surfaces. Z-Ultimate 3000 White, when printed with Zebra 5095 or 5100 ribbons, is UL Recognized for Indoor and Outdoor use and is CSA Component Acceptable for Heavy Duty Use -- Indoor and Outdoor. (UL Recognized when printed using any Zebra printer. CSA Component Acceptable when printed with any Zebra printer except the Zebra Z-221). Suggested applications include; shelf or scan-pallet labels, water-immersed labels, labels in contact with moving parts or friction conveyor drives, and labels exposed to acid or alkali solutions.

Trans Tag 1070™

An uncoated, 7 mil, white, thermal transfer, paper tagstock. It provides excellent ink receptivity and print quality. Suggested applications include; general purpose ticketing, shop floor tracking tickets, retail hang tags, AIAG, LOGMARS and industrial inventory control tags, and labels requiring excellent resistance to oil, alcohol, dirt, blood and water.

Trans Tag 2050™

A premium, smooth coated, 5 mil, white, thermal transfer, paper tagstock, specially designed to produce outstanding print quality. Suggested applications include; general purpose ticketing, shop floor tracking tickets, retail hang tags, and inventory control tags.

Trans Tag 2070™

A premium, smooth coated, 7.5 mil, white, thermal transfer, paper tagstock, specially designed to produce outstanding print quality. Suggested applications include; general purpose ticketing, shop floor tracking tickets, retail hang tags, and inventory control tags.

Direct Tag 2060™

A smooth, 5.3 mil, bright white, direct thermal, paper tag, which produces high-contrast, black, visible light, images with thermal printers. Suggested applications include; general purpose ticketing, shop floor tracking tickets, and retail hang tags.

Direct Tag 2070™

A smooth, 7.5 mil, bright white, direct thermal, paper tag, which produces high-contrast, black, visible light, images with thermal printers. Suggested applications include; general purpose ticketing, shop floor tracking tickets, and retail hang tags.

Starter Kits

One 50 meter roll of Trans Matte 2000 packaged with one 50 meter roll of 5319 ribbon. This is an ideal package for new users of Zebra printers who are ready to start printing labels.

Effective September 1, 2003

Zebra Zip Ship Media

Suggested Price List

Value Pack

Zebra's Value Pack consists of three full size rolls of Trans Matte 2000 labels and one full size roll of 5319 wax ribbon. This kit provides a convenient way for customers to order our most popular sizes of labels and ribbons.

Z-Band® 4000 Kit

Z-Band 4000 is a pressure-sensitive wristband made of a topcoated, pearlescent white, polyester material with a high-strength, permanent, acrylic-based adhesive. The Z-Band 4000 Kit consists of three full size rolls of Z-Band 4000 and 1 full size roll of 5095 resin ribbon. The Z-Band 4000 is designed to work in Zebra thermal transfer printers. The Z-Band 4000 label and 5095 ribbon combination provide extreme resistance to smearing, abrasion, blood and solvents.

Direct Quick Print 3000™

This premium, smooth, bright white, direct thermal, paper labelstock produces high-contrast, black, visible light images with the Zebra's mobile and desktop direct thermal printers. The thermally-sensitive topcoating increases the battery life of your Zebra mobile printers, ensures maximum printhead life and protects the label from environmental conditions. An all-temperature, permanent adhesive provides premium cold temperature performance and excellent adhesion to a wide variety of surfaces. Suggested applications include; indoor, general purpose labeling, labeling of most packaging materials, LOGMARS, HIBC labeling, and applications requiring multiple contact scans without image smearing.

PolyPro Direct 1000™

A white, polypropylene, direct thermal labelstock which produces high-contrast images with Zebra's mobile printer line. This material also provides excellent resistance to water and common cleaning solutions.

PolyPro Direct 2000™

A white, polypropylene, direct thermal labelstock which produces high-contrast images with Zebra direct thermal printers such as the PA 400 portable printer. This material also provides excellent resistance to oils, blood, alcohol, water and common industrial cleaning solutions. This facestock is combined with an all-temperature adhesive for cold temperature applications. Suggested applications include; indoor, general purpose labeling, and labeling of most packaging material and plastic substrates.

Z-Direct Linerless

A direct thermal paper with a specially formulated silicone topcoat that allows for easy release of the permanent acrylic adhesive. Linerless labels provide more labels per roll, lower shipping costs and the need for less inventory. Suggested applications include; indoor, general purpose labeling, labeling of most packaging material, excellent for cold temperature applications.

Direct I.R. 4000

A smooth, white, direct thermal paper labelstock that produces high-contrast, black, visible light and IR images with Zebra thermal printers. Suggested applications include; indoor, general purpose labeling, labeling of most packaging material, and cold temperature applications.

Direct 2000 M™

A bright white, sensitive direct thermal paper label stock with a permanent adhesive for use in mobile printers. Suggested applications include; indoor, general purpose product and food labeling, applications requiring clean removability of label and shelf labels.

Trans Remove 3000™

Ultra smooth-coated thermal transfer paper with general-purpose removable rubber-based adhesive. Applications include; product identification; shelf, bin, storage labeling and various retail applications.

Direct Remove 3000™

A bright white, highly sensitive direct thermal paper label stock with a removable acrylic adhesive. Suggested applications include; indoor, general purpose product and food labeling, applications requiring clean removability of label, and labeling of most packaging material, including plastic and metal.

Z-Direct Kimdura Jewelry Label with UV Shield

A white, polypropylene, direct thermal label stock that produces high-contrast images with Zebra thermal printers. Provides excellent resistance to ultra violet light. Suggested applications include; jewelry tags and ring labels.

White Thermal Transfer Jewelry Label

A white, polypropylene, thermal transfer label stock. Provides excellent resistance to ultra violet light. Suggested applications include; jewelry tags and ring labels.

Direct Receipt 2024

An uncoated, direct thermal, receipt paper which produces high-contrast, black images with Zebra thermal printers. This material has resistance to image fading, but is not recommended for applications involving long-term exposure to sunlight or extreme heat. Suggested applications include; retail receipts, car rental receipts and general purpose ticketing.

Direct Receipt 2032

An uncoated, 3.2 mil direct thermal, receipt paper which produces high-contrast, black images with Zebra thermal printers. This material has resistance to image fading, but is not recommended for applications involving long-term exposure to sunlight or extreme heat. Suggested applications include; retail receipts, car rental receipts and general purpose ticketing.
